European *Values* Study

European Values Study (EVS) and World Values Survey (WVS)
THIRD ITALIAN CONFERENCE OF EVS/WVS DATA USERS
Crisis after Crisis: Value Change in Italy
Bergamo, 29-30 September 2022

Since the beginning of the century, Italy has gone through an impressive sequence of crises on a regional as well as global scale. The economic downturn that began in 2008, the refugee crisis in the last decade, the COVID-19 pandemic, the ongoing conflict between Russia and Ukraine, just to mention the main events. Besides the social and economic impacts of the crises, it is essential to study changes and possible impacts on values and attitudes. The conference aims to discuss value change in Italy – also from a comparative perspective by considering different domains – and offer an opportunity for scholars studying the Italian case on the basis of EVS and WVS data to meet.

The European Values Study (<https://europeanvaluesstudy.eu/>) and the World Values Survey (<https://www.worldvaluessurvey.org/>) are large-scale, cross-national and longitudinal survey research programmes concerning basic human values.

Call for papers

The conference aims to gather methodologically high-quality, theoretically based contributions using EVS and WVS data. Presentations combining EVS, WVS and other data are also welcome. The call asks for a special emphasis on Italy: comparative and longitudinal contributions are encouraged. The conference welcomes presentations on any values domain, as well as methodological contributions.
